

PHP Development Tools (PDT)

```
graph TD; PDT[PHP Development Tools (PDT)] --> DLTK[Dynamic Languages Toolkit (DLTK)]; PDT --> WST[Eclipse RCP, Eclipse IDE, Web Standard Tools (WST)]; DLTK --> WST;
```

The diagram illustrates the architectural dependencies of PHP Development Tools (PDT). PDT is shown as a large light purple box at the top left. It has two red arrows pointing downwards: one to the right, leading to the Dynamic Languages Toolkit (DLTK), and one directly down to the Eclipse RCP, Eclipse IDE, and Web Standard Tools (WST). The DLTK is a smaller light orange box positioned to the right of PDT. A second red arrow points from the DLTK box down to the WST box. The WST is a large light blue box at the bottom of the diagram.
